Digital and Web Designer at Speak 2 Lead

January 2017 - Present

Speak 2 Lead hired me for a complete re-branding and re-design of their online presence. I worked closely with the marketing department as well as the founders of the company to understand their brand personality and their target audience, The responsive website was designed for optimum use on mobile devices as users mostly visited from their IOS & Android. The logo was recreated in 2D and 3D formats to use in digital and content marketing. The promo video was created using Adobe Illustrator and After Effects. I also worked on brochures, emails signatures, e-learning

gamification, and business cards. I also standardized all documents used in the company to use the same font, font size, color codes and formats.
